

ESG TRAINING FROM MANCHESTERCF

There is a growing consensus by regulators around the world that environmental, social and governance (ESG) factors and AML concerns share intersecting priorities at financial institutions. Without appropriate training, financial institutions solely focused on AML compliance may be blind to potential client risk, reputational risk and regulatory risk that can be caused by banking customers with poor ESG practices.

The ESG Training from ManchesterCF credential consists of five training modules that highlight ESG considerations in the world of AML compliance:

Participants earn the ESG Training from ManchesterCF credential by completing the five modules with an average grade of 80% or higher in each course over a one-year period.

- All modules can be accessed online 24/7 in HTML5 – laptop, desktop or tablet
- 80% average grade per course
- Credential from ManchesterCF
- Digital badging on LinkedIn profile from Credly

With this credential, AML compliance professionals can distinguish themselves among their peers as ESG champions.
