

## FINANCIAL CRIME IN CRYPTOASSETS CERTIFICATE PROGRAM

The Financial Crime in Cryptoassets (FCC) certificate program from ManchesterCF provides advanced financial crime training for financial institutions, logistics firms and shipping companies. All FIU CONNECT modules selected for this certificate program are written from an international perspective and are available on an advanced learning management system.

Courses examine patterns of money laundering, terrorist financing, sanctions evasion, corruption and national security threats within the cryptoassets market.

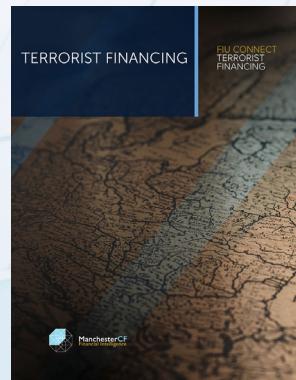

Individuals enrolled in the FCC certificate program are required to complete all six of the following courses with a grade above 80% for each courses:

FIU CONNECT (Cryptoassets)

FIU CONNECT (Fundamental AML)

FIU CONNECT (Terrorist Financing)

FIU CONNECT (Economic Sanctions)

FIU CONNECT (Corruption)

All FIU CONNECT modules are on-demand training programs and self-paced. An average of 8-10 hours is required to complete one of the six courses. Components include a digital textbook, reference documents and knowledge assessment.

Those who successfully complete the program receive a digital badge for their social media profile.

The FCC certificate program is designed for institutional clients. Detailed user analytics are provided for training

and compliance program managers. Regulators and senior management will have reliable statistics on training program implementation progress.
